EuroPerio9 programme is unveiled – more than 100 speakers over four days

The organising committee of EuroPerio9, which takes place in Amsterdam in June 2018, has published the scientific programme for the congress. The extensive and varied programme features more than 70 sessions and over 100 speakers, who will provide the latest insights into periodontal science and clinical practice.

JCP Digest presents study on treating severe chronic periodontitis with short (three-day) antibiotics regimen

A placebo-controlled randomised clinical study investigates whether
a three-day course of antibiotics, rather than the traditional seven-day course, might prove equally effective as an adjunct to nonsurgical periodontal treatment but with a reduced risk of encouraging antibiotic resistance.
