EuroPerio8 early registration breaks records

Advance registrations for EuroPerio8 are 40% higher than those for any previous edition of the event, the world’s biggest congress for periodontology and implant dentistry. By the March 6 deadline for “early bird” bookings, 6,570 participants from 94 countries had registered. Regular fees now apply for registrations until May 13, after which more expensive late and on-site fees take effect. EuroPerio8 takes place in London from June 3 to 6.

EuroPerio8, June 3–6: all the stars of perio science

You can check out the full EuroPerio8 scientific programme here. For more insight into the speakers and their presentations, you can visit both Perio People, the official EFP blog for EuroPerio8, and the EFP's YouTube channel. You can also get prepared for EuroPerio8 sessions by reading the abstracts of the presentations.

JCP will publish Workshop guidelines on prevention in April

Wide-ranging new guidelines on the prevention of periodontitis and peri-implantitis, based on the conclusions of the XI European Workshop in Periodontology, will be published in a Journal of Clinical Periodontology supplement in April. The guidelines call for public-health campaigns about peri-implantitis and include recommendations on mechanical plaque removal and giving instructions to patients which will have a big impact on clinical approaches to prevention.

EFP's new LinkedIn page attracts more than 1,000 subscribers

Make the most of the EFP’s new page on the LinkedIn professional network to keep up to date with perio news and with your colleagues’ profiles. The EFP’s LinkedIn page has gained more than 1,000 professional contacts in its first month and is growing rapidly.
