EFP and Oral-B launch project dedicated to oral health and pregnancy

The EFP and leading oral-healthcare brand Oral-B have created a web portal to provide crucial information about women’s oral health during pregnancy. Based on the latest scientific research, the Oral Health and Pregnancy project offers information and advice to health professionals and patients.

EFP Postgraduate Symposium brings together more than 100 participants from 15 universities

The EFP’s 7th Postgraduate Symposium took place on September 7 to 9 in Ballyconnell, Ireland, bringing together well over 100 students and university lecturers from the EFP’s accredited programmes in periodontology.

EFP Alumni project now has more than 130 members

The EFP’s new EFP Alumni project is attracting a large number of registrations and more than 130 people have already signed up. Membership is open to graduates from EFP-accredited programmes, to past and present teachers and professors at these programmes, and to members of the current or a previous EFP executive committee.

2017 – a busy year so far, with much more to come

The first eight months of 2017 has been a busy time for the EFP, featuring two major international workshops, the hugely successful
European Gum Health Day, and the approval of a new strategic plan that will guide the federation’s future. There is much more to come in the rest of this year and the federation is also busily preparing for EuroPerio9 in Amsterdam in June 2018.

Video of the Month: Perio-Diabetes Workshop

Phoebus Madianos, chair of the EFP’s scientific affairs committee, speaks about the Perio-Diabetes Workshop, held in February 2017 in the SEPA Gum Health Centre in Madrid. He highlights the role of diabetes as a risk factor for periodontitis and the evidence that treating diabetes patients for periodontitis can help them improve their glycaemic control.
