

April 20<sup>th</sup>, 2022

Dear Presidents and Delegates,

As presented a couple of weeks ago during our General Assembly, the EFP has launched a donation campaign aiming in delivering urgent health care to people in Ukraine and to refugees from the armed conflict. As a European academic organization within health and medicine, it was only natural for us to react and organize this humanitarian action. The EFP partnered with the WHO Foundation on this project, and we hope that our members will embrace this initiative and together can make a difference.

This campaign can only be carried out with your support, help and engagement. We kindly ask you to:

- 1) Disseminate this campaign on social media
- 2) To send out to your members the email below
- 3) Share on your social media platforms the EFP posts about the campaign

The EFP has set a goal of €30,000 to be raised in this campaign, which is targeting the members of the 37 EFP-affiliated national societies of periodontology and anyone from our community who would like to donate. This is about only 2 € pr. member!

On our [website](#), you will find all information on how to donate. If you would like a translation for your own language, please don't hesitate to contact our communication team ([cgasperin@efp.org](mailto:cgasperin@efp.org)).

One of our goals for this year is to have the national societies even more involved in our campaigns, initiatives, and strategies, working together on our common interests. Together we are stronger!

Thank you in advance for your support.

Best regards,

Andreas Stavropoulos

EFP President

Nicola West

EFP Secretary General

## Letter addressed to the members of the NSs

April 20<sup>th</sup>, 2022

Dear Members,

The EFP has recently launched a donation campaign aiming in delivering urgent health care to people in Ukraine and to refugees from the armed conflict. This donation campaign is a humanitarian action, and we would do the same if a similar situation was happening elsewhere in Europe.

This campaign can only be carried out with your support and help. The EFP has set a goal of €30,000 to be raised in this campaign. This is approximately 2€ per member. Of course anyone can donate through the link <https://www.efp.org/about-the-efp/help-ukraine-campaign/>

Join the campaign and contribute to deliver urgent healthcare to people across Ukraine and refugees in neighboring countries affected by this crisis.

Best regards,

Andreas Stavropoulos

EFP President

Nicola West

EFP Secretary General
